

YALE CENTER FOR HEALTHCARE SIMULATION

Faculty Development – 2026 Program Schedule

The **Yale Center for Healthcare Simulation** is an interactive learning environment where participants can safely practice high-acuity, low frequency clinical events without risk. Our philosophy on learning is based on David Kolb's experiential learning theory. We provide our learners with opportunities to have concrete experiences whether real or simulated during which they can reinforce existing clinical care/standards, apply new skills, theories and knowledge with an opportunity to experience reflection on action or reflection in action. The reflection is learner-centered and guided by trained facilitators who seek to expose rationale for behaviors and then discuss way to improve behaviors and apply new knowledge in the clinical setting.

FUNDAMENTALS OF SIMULATION DESIGN AND DEBRIEFING: This interactive, half-day course for Yale New Haven Health and Yale School of Medicine faculty and staff presents the elements of simulation-based education including scenario design, facilitation, implementation, and structured debriefing. Participants have the opportunity for practice and prompt application during the session. The course is facilitated by a team of faculty and operations specialists from the Yale Center for Healthcare Simulation.

Schedule for 2026 – All classes are from 8 am – 12 pm

- January 6 or January 27
- February 10 or February 24
- March 10 or March 31
- April 28
- May 5 or May 19
- June 9 or June 23
- July 14 or July 28
- August 11 or August 25
- October 13 or October 27
- November 10 or November 24
- December 1 or December 15

Designation Statement: Yale School of Medicine designates this Live Activity for a maximum of 4.00 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

SIMULATION DESIGN & DEBRIEFING INTENSIVE 2-DAY PROGRAM: An in-depth interactive 2-day program designed to educate Yale New Haven Health and Yale School of Medicine faculty and staff on simulation theory and practical application in clinical disciplines and non-clinical services. The course is facilitated by a team of faculty and operations specialists from the Yale Center for Healthcare Simulation.

April 7 and 14
September - TBA

CME Pending for this course

Location: Yale Center for Healthcare Simulation, 730 Howard Avenue, New Haven, CT
