

# A competition for Connecticut health systems and hospitals

## Innovate. Compete. Transform Healthcare with AI.

Employees and medical staff of Connecticut health systems and hospitals are invited to participate in the inaugural Health AI Championship—an opportunity to develop and showcase AI-driven solutions that address critical healthcare challenges.

### Competition Tracks:

- Rehabilitation & Recovery
- Acute & Critical Care
- Chronic Disease Management
- Population Health & Preventive Care

Up to 8 proposals will receive funding, with a maximum award of \$100,000 for first prize.

### Proposals should include:

- The project(s) competition track(s)
- The unmet clinical need your innovation will address and its magnitude
- Detailed description of how the proposed innovation addresses the clinical need
- Magnitude and type(s) of impact you expect to achieve with your innovation (e.g., improve patient satisfaction, improve provider satisfaction, reduce length of stay, improve patient outcomes)

**Learn more and submit your proposal**
