Ambulatory Referral for Covid Antibody Infusion Therapy

Place a referral order for Covid Antibody Infusion Therapy using the Visit Taskbar (ADD ORDER).

1. Click in the **Add Order** field on the **Visit Taskbar**, type ‘ref covid antibody’ and press **Enter**.

2. Double-click to select the correct monoclonal antibody therapy drug panel order.

3. Click on the name of the order to complete the screening questions.
4. Complete the screening questions and click **Accept**.

- Select the patient preferred location of infusion first. Based on your selection, additional questions will display.

- Be sure to scroll down and answer all applicable questions. Do NOT uncheck or change any of the medications ordered.
