

# COVID-19 Radiology Hot Site Project Plan

## EXECUTIVE SUMMARY

### Overview

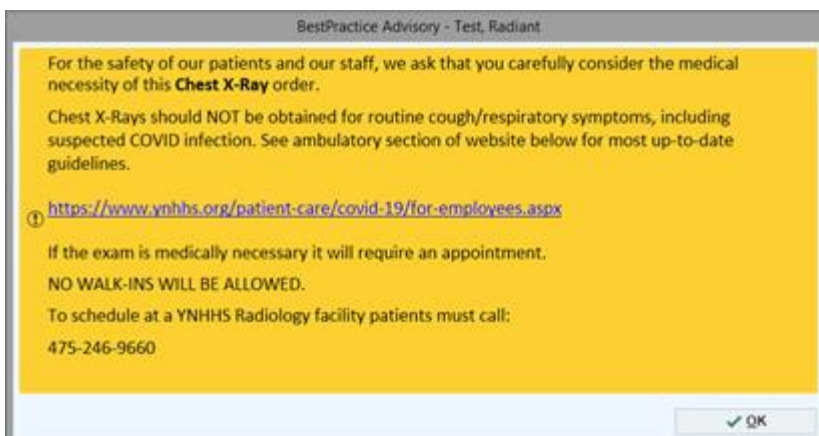

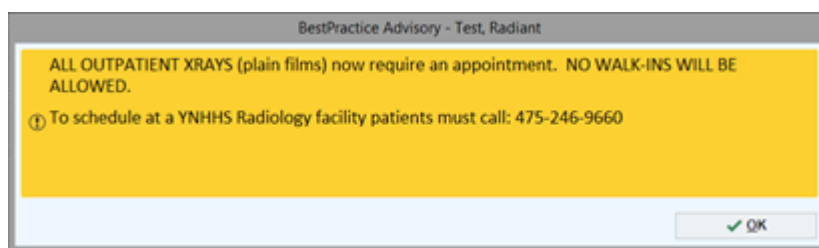

As the cases of suspected and active COVID-19 begin to expand across our state, we have decided to identify sites across the Yale New Haven Health System that will be used exclusively to cohort suspected and active COVID-19 patients.

### What's Needed

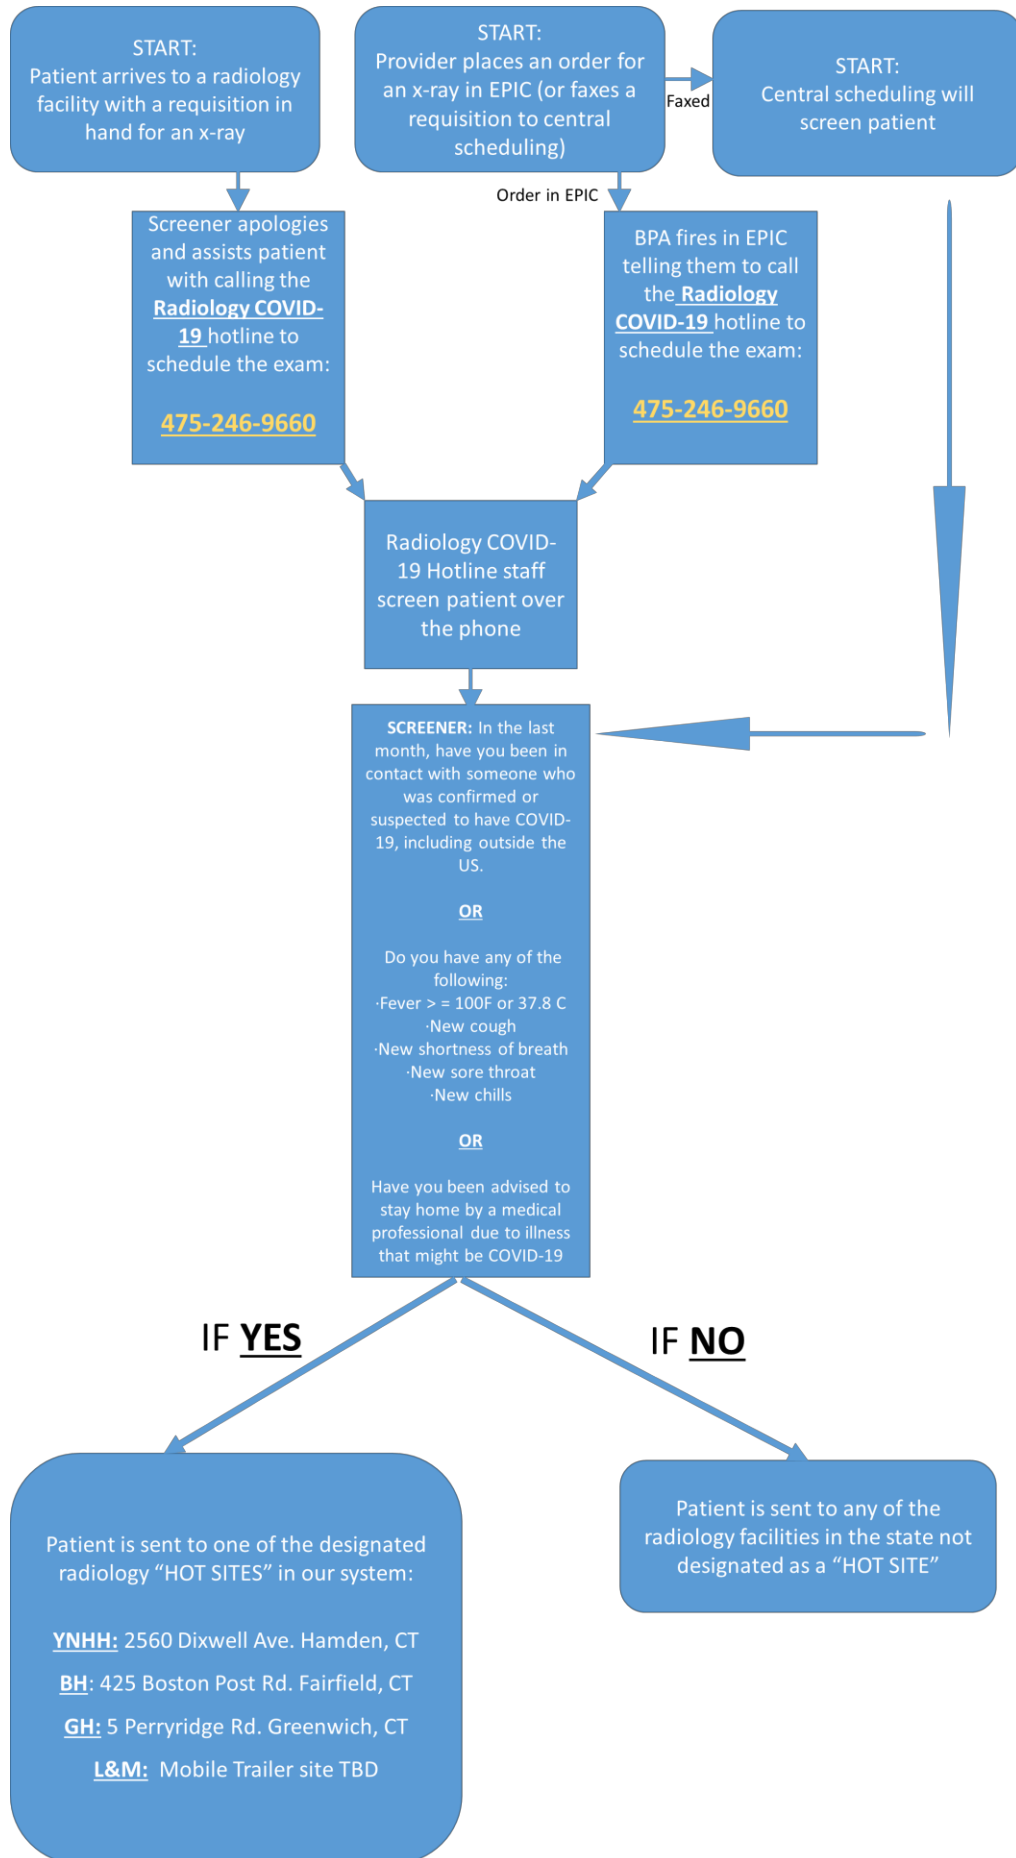

In order to accomplish this, we will need some key operational items acknowledged and fulfilled. They are bulleted below:

- Proper PPE for on-site staff
  - All staff will be required to view the PPE video See below hyperlink:
    - <https://vimeo.com/397424618/5e69e27680>
- Appropriate staffing to support the influx of patients
  - May ramp up or down depending on the volume
- A staff member at the main entrances in order to crosscheck patients and their symptoms
  - Ensure proper masking
  - Ensure there are no visitors entering the facility (unless true assistance is needed)
- Locations identified for each network to make patient travel less cumbersome
- Notifications to the referring providers in our YNHHS network as well as the community
- A central radiology COVID-19 hotline established to field calls and questions
  - As well as a workflow on how to handle these calls uniformly (see Appendix 1 for workflow)

### Sample BPA for EPIC providers

## APPENDIX 1

***\*Important Phone Numbers***

**BH:** 203-447-5581

**GH:** 203-863-3033

**L&M:** 860-442-8800

**YNHH:** 475-246-9660

# Attention

## Visitors and Guests

**Due to the COVID-19 outbreak, we now require advanced scheduling for all imaging tests including x-rays. Walk-in appointments will not be accepted.**

Please call the Radiology COVID-19 Hotline at 475-246-9660 between 7 am and 7 pm any day of the week to schedule a test.

We apologize for any inconvenience.

Thank you in advance for your patience as we work to ensure the health and wellbeing of our community.
