| No mask | Positive household member (<6 feet for >15 minutes over a 24 hour period without a mask indoors) | **HIGHEST RISK** | IF exposed HCW asymptomatic,  
  • Home QUARANTINE**  
  • Return to work after day 7 post-exposure if tested negative on day 6 or later  
  - Contact Occ-Health Call Center for test order. Staff may self-schedule it afterwards via My Chart.  
  • If testing not performed, may return to work after day 10 post-exposure.  
  • Self MONITOR for fever & symptoms twice daily  
  If exposed HCW symptomatic,  
  • EXCLUDE from work + SELF-ISOLATE  
  • Self-schedule testing by going to: [https://ocucovidtesting.ynhhs.org](https://ocucovidtesting.ynhhs.org) |
| Highest risk procedure for transmission (see list below)* | Any amount of time in same room that procedure is taking place | **HIGHEST RISK** | IF exposed HCW asymptomatic,  
  • Continue to WORK  
  • Test @ day 5 & 12 for clearance to continue to work; if test positive, DO NOT present to work and contact the Call Center.  
  - Notification will be sent via MyChart to schedule  
  • Self MONITOR for fever & symptoms twice daily  
  If exposed HCW symptomatic,  
  • EXCLUDE from work + SELF-ISOLATE  
  • Self-schedule testing by going to: [https://ocucovidtesting.ynhhs.org](https://ocucovidtesting.ynhhs.org) |
| Any exposure other than highest risk both at work or in the community. | | **LOWER RISK** | IF exposed HCW asymptomatic,  
  • Continue to WORK no further f/u  
  • Self MONITOR for fever & symptoms twice daily  
  If exposed HCW symptomatic,  
  • EXCLUDE from work + SELF-ISOLATE  
  • Self-schedule testing by going to: [https://ocucovidtesting.ynhhs.org](https://ocucovidtesting.ynhhs.org) |

These are guidelines only which are subject to change and should be used based on specific scenarios. If in question reach out to Infection Prevention or Occupational Health.  
*Endotracheal intubation/extubation, CPR, manual ventilation, and bronchoscopy  
**Dept VP/Chair, CNO, CMO may request an exemption if there is significant effect on operations from the Medical Director of IP.

COVID-19 Exposure Risk Response

Mitigation

**Symptoms & Return from Travel***
- Self schedule COVID-19 test
- https://ocucovidtesting.ynhh.org
- Remain out of work until test resulted. If symptomatic, clearance required by Occupational Health to return

**Lower Risk Exposure with No Symptoms**
- This includes any exposures at work or in the community other than those listed as highest risk.
- Continue to work & monitor for symptoms and check for temperature >100 twice a day.
- If there is concern for a risk of exposure at work complete the exposure report in ESS

**Infection Prevention Identified**
- Infection Prevention to review cases of patients with hospital acquired COVID-19
- IP will partner with staff’s supervisor
- Supervisor will notify employee of highest risk exposure
- Complete exposure report in ESS
- Continue to work & monitor for signs and symptoms. You will receive notification via My Chart to schedule testing on approximately day 5 and 12 from time of exposure

**Staff Reported Work Exposure**
- Participated in one of the following procedures without wearing a respirator or elastomeric plus eye protection or PAPR
  - Intubation/extubation
  - CPR
  - manual ventilation
  - bronchoscopy
  (Note: persons may be infectious for 2 days prior to onset of symptoms or positive test if asymptomatic)
- Notify your supervisor
- Supervisor to notify IP and complete staff information exposure Excel form
- Complete exposure report in ESS
- Continue to work & monitor for signs and symptoms. You will receive notification via My Chart to schedule testing on approximately day 5 and 12 from time of exposure

**Staff Reported Home Exposure**
- Living with someone who tested positive for COVID-19 (<6 feet, >15 minutes over 24 hour period without mask indoors)
- Return to work on day 7 post-exposure if tested negative on day 6 or later
  OR
  If testing not performed, return to work on day 10
- Staff may self schedule testing after contacting OHS to place order.

*Travel to high risk states and countries as designated by the state of CT. ct.gov
