Complete a MyChart Questionnaire

MyChart allows you to complete questionnaires sent by your Provider. Questionnaires are a fast and convenient way for you to complete medical information ahead of your visit.

1. Log into your MyChart account.
2. Click Health and then select Questionnaires.

3. Click to select the correct questionnaire. Complete the questionnaire and submit when you’ve completed the form.

If you’re completing eCheck-In and there is a questionnaire you need to complete prior to your appointment, you’ll see Questionnaires display (you can just complete the questionnaire during the eCheck-In process).
